

**GOVERNMENT OF NAGALAND**  
**DIRECTORATE OF EMPLOYMENT, SKILL DEVELOPMENT & ENTREPRENEURSHIP**  
**NAGALAND: KOHIMA**

NO.DESE-10/51/2017 (Vol-V)

Dated Kohima the 8<sup>th</sup> Feb'2024

To,

**Sub: Invitation of Proposal for Interior & Exterior Designing & Fabrication of traveller van for Mobile Skilling Morung under SANKALP Project.**

Sir/Madam,

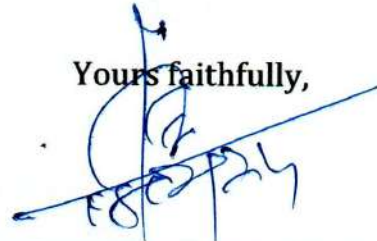

In inviting a reference to the subject cited above, I have the honour to inform your firm that the Department is preparing to implement the "Accelerated Access to Skill Development Programme through Mobile Skill Morung" as part of the SANKALP project, which focuses on the concept of skills on wheels.

The project aims to provide Skill Development opportunities, particularly for rural youths who have face limitations in access due to the absence of training centers in their areas through the Mobile Skill Morung.

In this regard, I may like to request you to submit a proposal for the design, fabrication and retrofitting of a traveller van (Force T2 Traveller DV FM2.6CR BS6 PS/ABS) for the Mobile Skill Morung, along with the estimated budget for the specified scope of work outlined in the annexure.

Encl: As stated above.

Yours faithfully,

(KOVI MEYASE)NCS

Secretary & Ex-officio Director

**Scope of Work:**

This scope of work aims to create a state-of-the-art Mobile Skill Morung with a focus on structural integrity, functionality, and visual appeal.

**1. Steel Structure and Designing:**

- Interior: Designing and implementing steel structure for the interior including drawers to accommodate the various tools and machinery as well as including space for installation of a generator.
- Exterior Carrier Rack: Constructing a robust exterior carrier rack for additional utility.

**2. Wooden Flooring and Ceiling Installation:**

- Installing high-quality wooden flooring and ceiling materials for a durable and aesthetically pleasing interior.

**3. Non-Toxic Thermal Insulation:**

- Incorporating non-toxic thermal insulation to ensure energy-efficient environment inside the Mobile Skill Morung.

**4. Installation of Power Supply, Wiring, Lighting & Plugs:**

- Interior: Setting up power supply, wiring, lighting, and plugs for a functional interior space.
- Exterior (Fog Lights): Installing external fog lights for enhanced visibility and safety.

**5. Graphic Pasting and Designing:**

- Applying visually appealing graphics and designs to enhance the overall aesthetic of both the interior and exterior.

**6. Exterior & Interior Painting:**

- Exterior and interior painting to provide a professional and polished appearance.

**7. Portable Hard Casing and Detachable Cabinets:**

- Designing and incorporating portable hard casings for equipment protection.
- Implementing detachable cabinets for flexibility and ease of use.

**8. Foam Insulation and Velcro Tape for Cabinets:**

- Utilizing foam insulation for additional insulation properties.
- Applying Velcro tape for secure and convenient cabinet closures.
